

BuildUp Pods R1 & R2

Open Pod

Design: Kauppi & Kauppi

BuildUp Pod R1 and R2 are characterized by openness, functionality, and accessibility – with the mission to create inviting working and meeting spaces, and to contribute to pleasant sound atmospheres. Semi-muted, subdued acoustic rooms with an equally airy feeling as embracing cosiness, with the same design as the previously launched BuildUp system. The rounded shaped R2 is offered in two different configurations. The Coupé version is designed to host work sessions or informal meetings for two persons or more, with facing sofas and a centered pillar table. R2 Work is prepared for one person in need of a private space, furnished with both a desk and a sofa for reading and recreational pauses. As the name suggests, the round R1 is intended for one individual in demand for a small personal corner. Available with either a desk or a comfortable sofa - providing a calm, semi-muted space without visual distraction. All BuildUp Pods can also be delivered as empty rooms, ready to be custom furnished by architects. All pods have generous entrances without thresholds that closes with curtains. The spaces are pleasantly lit by integrated LED light-strips between the wooden ceiling beams, combined with additional lighting on wall or table. Conveniently placed power outlets makes it easy for users to plug in various devices. The fabric covered wall elements have equally good sound absorption on the inside as on the outside, which means that the pods also serve as an efficient acoustic solution for the greater surrounding interior. The self-supporting construction is quick and easy to install.

DESCRIPTION

R1 Pod: 3 curved screens with a radius of 700mm, 90 ° connected with hidden special fittings.

R2 Pod: 1 straight screen 1000mm and 4 curved screens with a radius of 700mm, 90 ° connected with hidden special fittings.

Height: 2350mm (screen incl. plinth) + adjustable feet

Plinth with adjustable feet: black metal, height 100mm.

Upholstery: Furniture nailed with fabric on both sides.

See Product sheet Fabric and Piping.pdf for our standard fabrics, the sheet is available here:

<https://glimakra.com/en/download/.>

Frame straight screen: 2 x 35mm sound absorbing polyether (Oeko-Tex) glued on both sides of an 8mm sound reducing MDF board with an 80mm solid wooden frame.

Frame curved screens: 75mm recycled polyether from own production inside two sheets of perforated masonite and an 80mm solid wooden frame.

Ceiling beams: finger-jointed pine, 30 x 138mm, 10% white. 100% recyclable materials.

MOUNTING

All pods have a completely self-supporting construction, which means that no floor, wall or ceiling attachments are necessary. Adjustment feet are included to compensate for uneven floors. The Pods are easy to build and move if a new location is desired. The screens are connected with hidden special fittings. Allen key included.

The plinth is mounted on the screen upon delivery. An acoustic strip is attached under the plinth around the entire room. Delivered on a roll.

Installation, repair and maintenance of electricity to the sockets, switches and lighting may only be carried out by a qualified electrician. Wiring is done in the plinth and in integrated flex pliable conduits in the screens. Electricity for lamps and lighting is drawn on top of the ceiling beams.

The curtain rail is mounted 60mm inside the screen and the curtain is hung with the right side inwards.

CERTIFICATES

Möbelfakta: The product meets the requirements for environment and responsible supply chains defined by Möbelfakta.

Glimakra of Sweden AB is certified according to ISO 9001:2015 and ISO 14001:2015.
