

# PLANET™

DESIGN: SVEN IVAR DYSTHE

## PLANET™

DESIGN: SVEN IVAR DYSTHE

The PLANET™ with its classical form now features a movement mechanism that makes it more comfortable and provides a unique feeling of well-being. The mechanism lets you move whilst seated, so you can tilt forward and backwards - it follows your body.

The chair also swivels 360°, to give you even more freedom to move.

## PLANET™ table

DESIGN: SVEN IVAR DYSTHE

Planet™ table together with Planet™ chairs create a perfectly balanced order that blends impeccably into the rest of your interior designs.

The height of the table together with chairs fit perfectly for active sitting.

### Respecting the environment

Using environmentally friendly materials and processes in the production of their products is of the utmost importance to Stokke. It's also the aim to produce products that last a long time.

### Materials

All wooden parts - inserts and the table top - are delivered in solid oak in two versions; oiled natural or oiled with white pigments.

### Fabrics and leathers

Stokke offer a selection of high quality fabrics in a variety of colours. The fabric collection consists of natural materials such as wood and cotton. The high quality leather also comes in a variety of different colours.

### Warranty

A 7-year warranty is offered on all wooden components.  
A 5-year warranty is offered on the mechanism parts.

## WE ARE CREATED FOR MOVEMENT NOT FOR SITTING

Most of us during the course of a day are caught up in an impassive marathon – moving from one seat to another. We need to be able to move around freely and sitting for long periods of time puts a tremendous strain on the body. Stokke offers a unique collection of sitting solutions that guarantee movement and variation for the user.

### Intelligent sitting solutions

Stokke's products are daring, different and unconventional! They ensure you'll be able to move freely even when you are sitting for long periods of time.

## PLANET™ by Stokke

Sven Ivar Dyshe conceived the Planet™ in 1965. Now Planet™ appears in the STOKKE range – still as elegant and user-friendly – yet with functional improvements that makes it even more comfortable and practical.

True to its name Planet™ lets you rotate a full 360°. Now we've added our unique and patented mechanism that allows you to tilt the seat as well – a new dimension to the movement of the Planet™.

The effect of the tilting mechanism is comfortable sitting with smooth changing of positions. You will achieve the variation and body activity necessary to sit comfortably for hours on end. The tilting mechanism is carefully hidden leaving the delicate form intact.

### Move your body and tilt the Planet™.

The spring mechanism underneath the upholstery allows you to lean forward, to sit upright at ease and to lean backwards if you need to stretch. The effect is that you can change sitting positions smoothly and achieve the freedom and movement necessary to feel relaxed and comfortable.

Planet™ is ideal to use in the living room around a table for social occasions. It's also perfect for sitting and watching television or to sit quietly and read a good book.

The removable seat cushion makes the Planet™ easy to clean.

The matching Planet™ table in solid oak makes it easy to find complete interior solutions. A few PLANET™ chairs around the PLANET™ table provide a simple, pure and honest display of scandinavian designs for friends and family.

The legs for the Planet™ chair and the Planet™ table are the same and come with inserts in solid oak.

"I'm your Planet – I complete your universe!"
