

BUZZISPACE.COM

The only permanence
is change.

As quickly as situations
in our daily environment
change, we need to adapt
structures and styles at
the same speed. For that
purpose Buzzispace
objects are light, easily
(re)installed and multi-
functional.

Buzzispace-products are designed for the housing of tomorrow, with their functional aspect, flexibility, lightness and adaptation.

Living is changing, changing is living.

Our products are multi-applicable in every room so that you can adapt your homes or offices to your actual needs with no effort at all.

Living and working should be fun, every day, over and over again!

CREATE YOUR SPACE!

(you are the architect)

Not only the look and functionality of a product are important, also the feeling that arouses when you touch it, is crucial.

Buzzispace only uses **soft materials** that do not only create a cosy atmosphere at home and in the office, but are also **ecological**.

Recycled and recyclable ingredients that are soft as velvet: you must discover the 'Buzzispace-feeling'!

TOUCH ME!

(but not for the first time)

STOP THAT NOISE!

In our hectic society, **silence has become a valuable good.**

A moment of peace at home or at work, is very important.

All of our products are made of **sound absorbing felt or fabric,**
so that you can create your own silent space
whenever and wherever you want to.

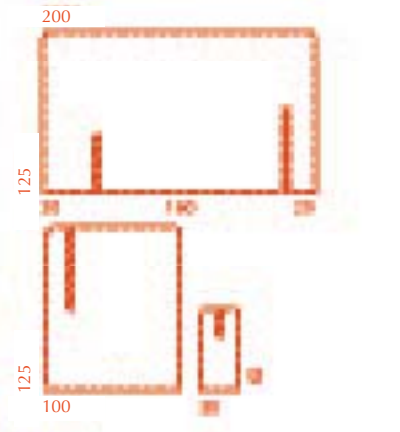

The future will bring you peace in times of stress,
create a calm moment
at your own 'buzzi-island'!

In search of a 'cradle to cradle' solution, every Buzzispace-material is recycled or biodegradable.

Waisted PET is 'upcycled' to design-felt and the biodegradable cardboard inside can be returned to nature through the idea of 'waste is nutrition'.

BUZZIZONE
design: Sas Adriaenssens

WHAT?

Room divider of approximately 125cm high that doesn't only look good in your interior, it also hides the messy children's section or the more intimate sitting/reading area.

MATERIAL?

Biodegradable board material (inside) and on the outside felt made of **upcycled PET-waste**, totally hand-made.

WHERE?

In the office:

Thanks to the 'open-office trend',
the office has turned into one large work place.

It stimulates good fellowship, but an important telephone conversation
requires sometimes privacy and high focus.

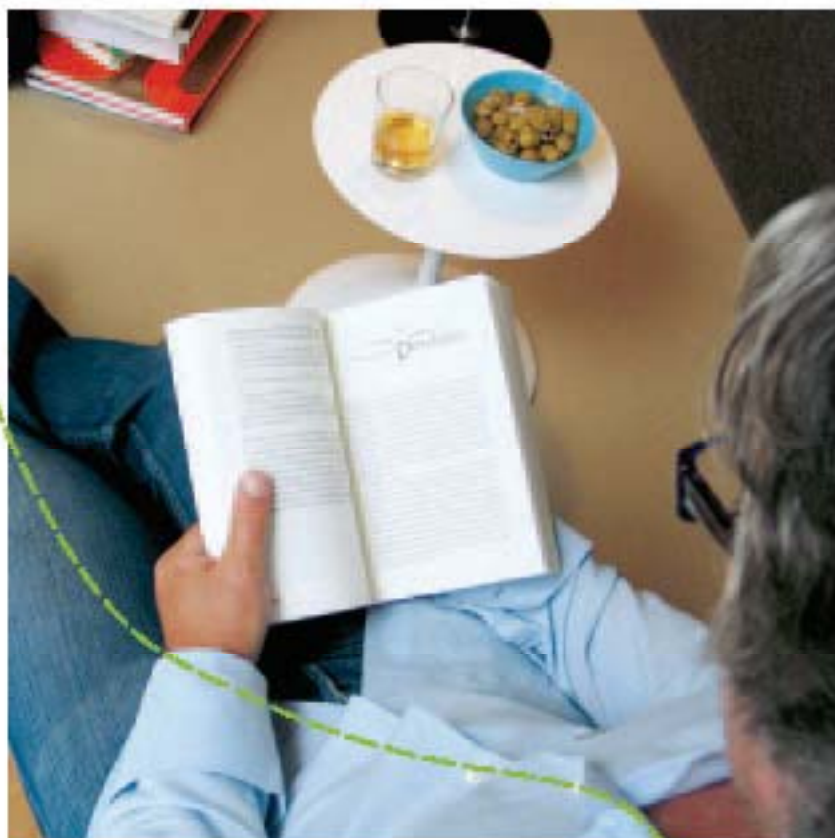

The Buzzizone creates **intimacy in an open space**
and thanks to the felt, it **absorbs every sound**.

Furthermore you can pin your to do lists, mood boards and photo's onto it.

At home:

The buzzizone has a soft character and therefore it fits perfectly
with your designer couch or deep-pile carpet.

The ideal solution **to hide** a desk or **to separate** a comfy reading place
or a noisy children's section from the rest of the living room.

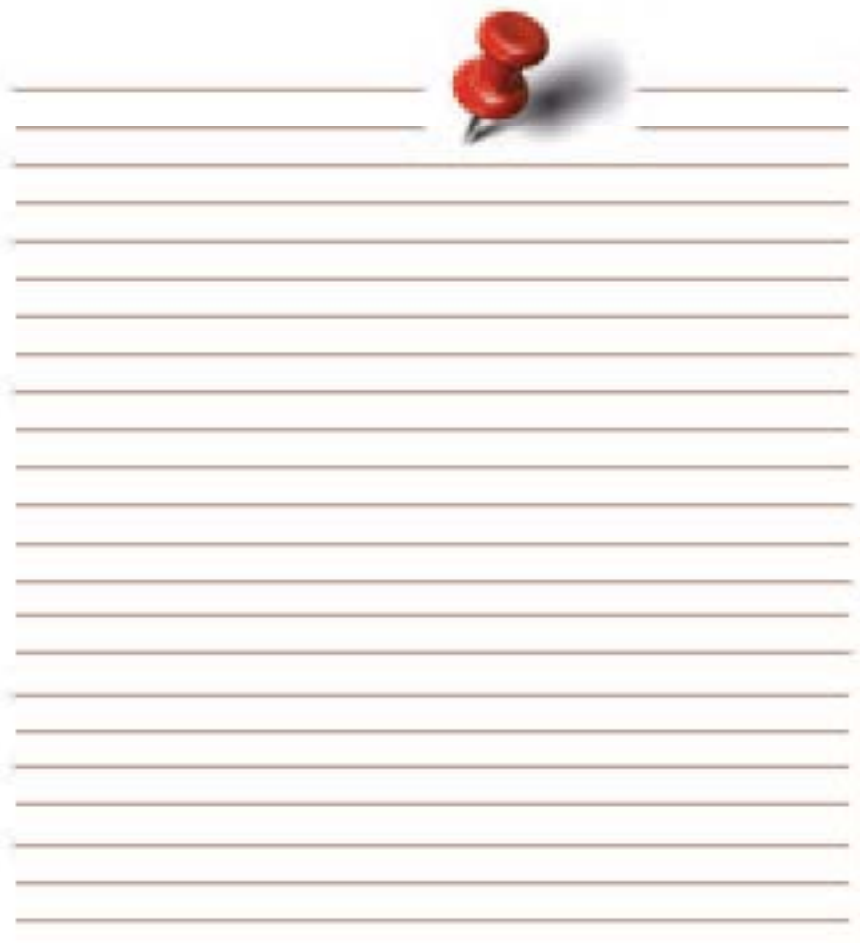

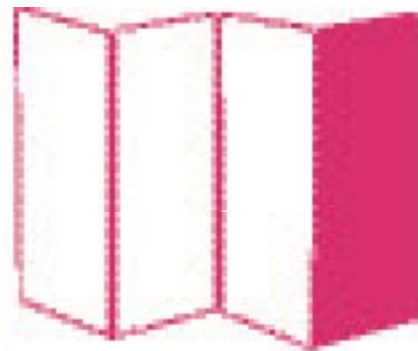

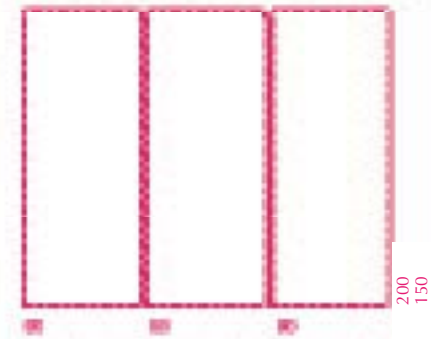

notes:

BUZZISCREEN
design: Sas Adriaenssens

WHAT?

Reinvention of the classic screen,
in bright colours and soft material,
to restyle your dressing or ugly corner,
or to create a cosy lounge.

MATERIAL?

Biodegradable board material (inside)
and on the outside felt made of upcycled PET-waste,
totally handmade.

WHERE?

At home:

nowadays, we tend to live in smaller houses
so we want to use every inch of it.

The Buzziscreen is the partner-in-crime **to hide** a messy stockpile
or **to create privacy** while changing clothes,
watching television or doing other private things.

In the office:

Why shouldn't an office look nice?

Away with gray and ugly looking printers and fax machines,
thanks to the Buzziscreen that hides everything
or creates **an acoustic barrier** between the coffee corner
and the colleagues who are working.

buzzilight
design: Sas Adriaenssens

WHAT?

A pendant or standing lamp that creates a cosy design light, thanks to its warm felt covering.

MATERIAL?

The buzzlight is made of recycled PET-waste, folded around a pure metal structure. Available in two sizes.

WHERE?

At home:

Thanks to its superb combination of material and shape, the Buzzilight is a real eye-catcher in every room. It's soft, has a playful shape and you can choose the inside and outside color out of many different shades. Suitable for every space in the house, to give it an instant 'wow' effect!

In the office:

We all know that striplights aren't good for our eyes and for the atmosphere. The Buzzilight is the perfect solution for more fun at work: it has a spectacular look, it's most multifunctional and very cuddly. Light up your work!

COLOURS

50
L 200

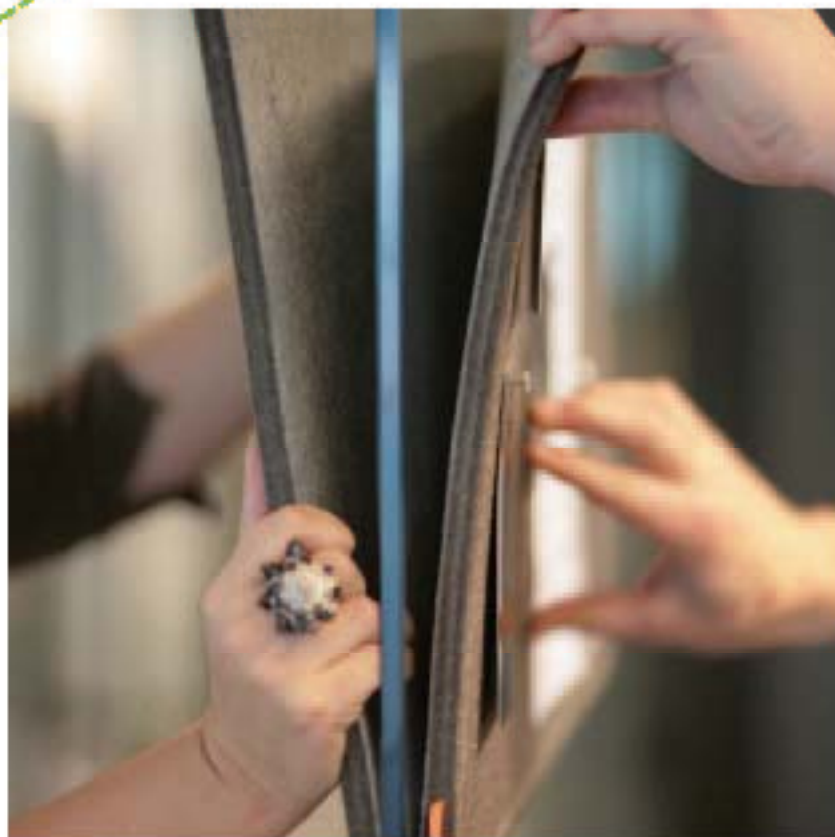

L 120

buzziboard
design: Sas Adriaenssens

WHAT?

A **felt notice board** in different colours that can be hung onto metal, glass or walls, so that you will never forget a thing anymore.

Material: Made of upcycled PET-waste

WHERE?

At home:

Create order in the disorder, that's what the Buzziboard is made for! It fits perfectly onto your refrigerator thanks to its built-in magnets, or you can hang it onto your wall with the metal strips that are added to the package. It brings some fun into your house with its bright and cheerful colors, but you can also pin all your shopping and 'wanted' lists onto it, as well as the pictures of the kids or the tickets for the madonna concert.

in the office:

Business cards, mood boards, meeting reports, plane tickets for the next business trip: a lot of things are lying around onto our desks! So it's time to get a Buzziboard into our offices and pin everything onto it, while it absorbs the noise in the mean time.

BUZZIBACK
design: Sas Adriaenssens

WHAT?

An **ecological 3D pouf**.

MATERIAL?

A 100% **recyclable 3D foam**
with a housse of **recycled fabric**

BUZZICUBE 3D
design: BuzziSpace DesignTeam

WHAT?

An **ecological pouf** or coffee table.

MATERIAL?

A 100% **recyclable foam**
with a house of **recycled fabric**

BUZZIBAG

design: BuzziSpace DesignTeam

WHAT?

A cuddly soft **eco-beanbag** for indoor use!

Available in seven colours - fits perfectly into every living area. The soft and tender BuzziBag can be used as an extra seat or place to lie down, at home as well as in the office, where it can be put next to other design furniture. The BuzziBag has style, is soft and cuddly, and multi-functional.

Dimensions: 135x170cm Large
100x135cm Junior

MATERIAL?

Felt made of **upcycled PET-waste**, totally handmade.

BUZZISKIN

design: Sas Adriaenssens

WHAT?

An ecological revolution for the interior:
self adhesive wallpaper.

Wallpaper, billboard, sound absorbing,
acoustic, ecological and flexible,
combined in one product.

MATERIAL?

Felt made of **upcycled PET-waste.**

BUZZISKIN 3D TILE

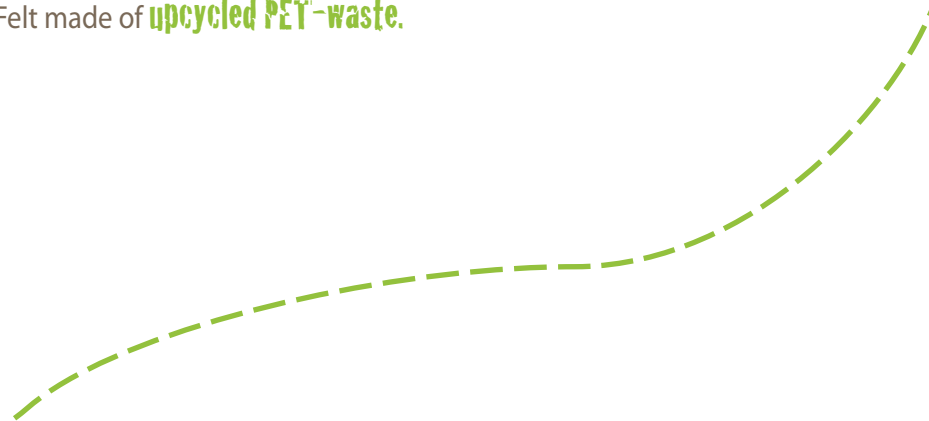

design: Sas Adriaenssens

WHAT?

An ecological & acoustic **self adhesive tile**

MATERIAL?

Felt made of **upcycled PET-waste**.

BUZZIDESK

design: BuzziSpace DesignTeam

WHAT?

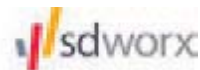

Desk divider of different heights.

Create some privacy & a comfortable acoustical workspace.

MATERIAL?

Biodegradable board material (inside)

and on the outside felt made of **upcycled PET-waste**, totally handmade.
