## eCell

### CONCEPT

#### DESIGN BY MARTIN SAAR

eCell is a noise-reducing phone booth that makes you feel like you are the only one in the office. Its goal is to isolate and reduce the noise sources in an open office so that the individual does not disturb the co-workers and vice versa. It gives you enough privacy to focus and feel comfortable while keeping a visual contact with the surroundings. It has everything for an ease of use such as a fully integrated electrical connections (230V + 5V USB), LED lighting and constant fresh air circulation which are both triggered by a motion sensor to save energy. The first and only design to use fabric on the outer shell making it a cozy and inviting space to blend in your office.

Advanced layering & sound-absorbing materials.  
Reduces noise up to -30 dB. Issued by Akukon Ltd.

Motion sensor  
activated fresh airflow & lighting

Power output  
for all of your devices be it 230V or a USB

Wheels  
The product is on wheels, for easy relocation

# eCell

## DESCRIPTION OF MATERIALS
