

ScreenIT Health & Care

ScreenIT Health & Care is a floor screen designed for the healthcare sector and is available in one size. The screen is built with a wood frame, filled with 30 mm sound absorbents and dressed in vinyl which is easy to disinfect and wipe to decrease risk of infection. The screen's long sides are both equipped with press studs to enable connecting as many screens as you want. Choose ScreenIT Health & Care on wheels or with a foot set for mobility and storage. Wheels and foot sets are always white. Thanks to the screen's design, there is an air gap between the bottom of the screen and the floor, enabling easy cleaning.
