BENGENTILE

Bengentile è un sistema di arredi spazio si organizzano i loro di reception secondo modelli funzionali diversi: il fronte si sviluppa lineare e il fronte si sviluppa in uno spazio chiuso un retrostante piano di lavoro. I luoghi in cui avviene la relazione utente / operatore sono evidenziati sia nello spazio di lato spazio. La potenzialità della struttura, permettendo di realizzare fronti di ricezione diversamente connessi (line - curve - cerchio - mix) tutti integrati ad una gestione accoglienza.

Bengentile is a furniture system capable of organizing the reception desks following different functional models: the front with a linear structure and the front behind. The working area is emphasized by thick wooden shelves. The aggregative potential of the components, their ease of use even by disadvantageous users - mix all characteristics to a caring welcome.

Bengentile est un programme d'aménagement à même d'organiser le travail de réception conformément à des modalités de fonctionnement diverses: la façade à un espace un plateau de service en face, auquel est associé un plan de travail positionné derrière ce plateau. Les points de contact entre l'usager et l'opérateur se retrouvent, et la possibilité de caractériser ces éléments au niveau couleurs et matériaux, vous permettent de réaliser des façades de réception aux formes

Bengentile ist ein Einrichtungssystem zum Gestalten des Empfangsbereichs nach verschiedenen Funktionsmodellen: gerade Empfangstheke und gebogene Arbeitsplatte befindet. Die Anwältsits, an der Kunds und Beraterarbeitsstuhl zusammenfindet, sind durch dicke Holzregale getrennt. Die Kombination gewährleistet die Gestaltung von vielseitigen Empfangstheken (gerade - gebogen - runde - mix), die alle einen angemessenen Empfang garantieren.

curvilinee. Essa è costituito da elementi strutturali del tipo a "baracca" definiti da un frontale verticale che sostiene un piano di servizio in vetro e al quale è aggregativo dei componenti, la loro fluidità sfuma anche da parte di un'ulteriore inventariaggio e la possibilità di caratterizzazione cromatica e materica degli

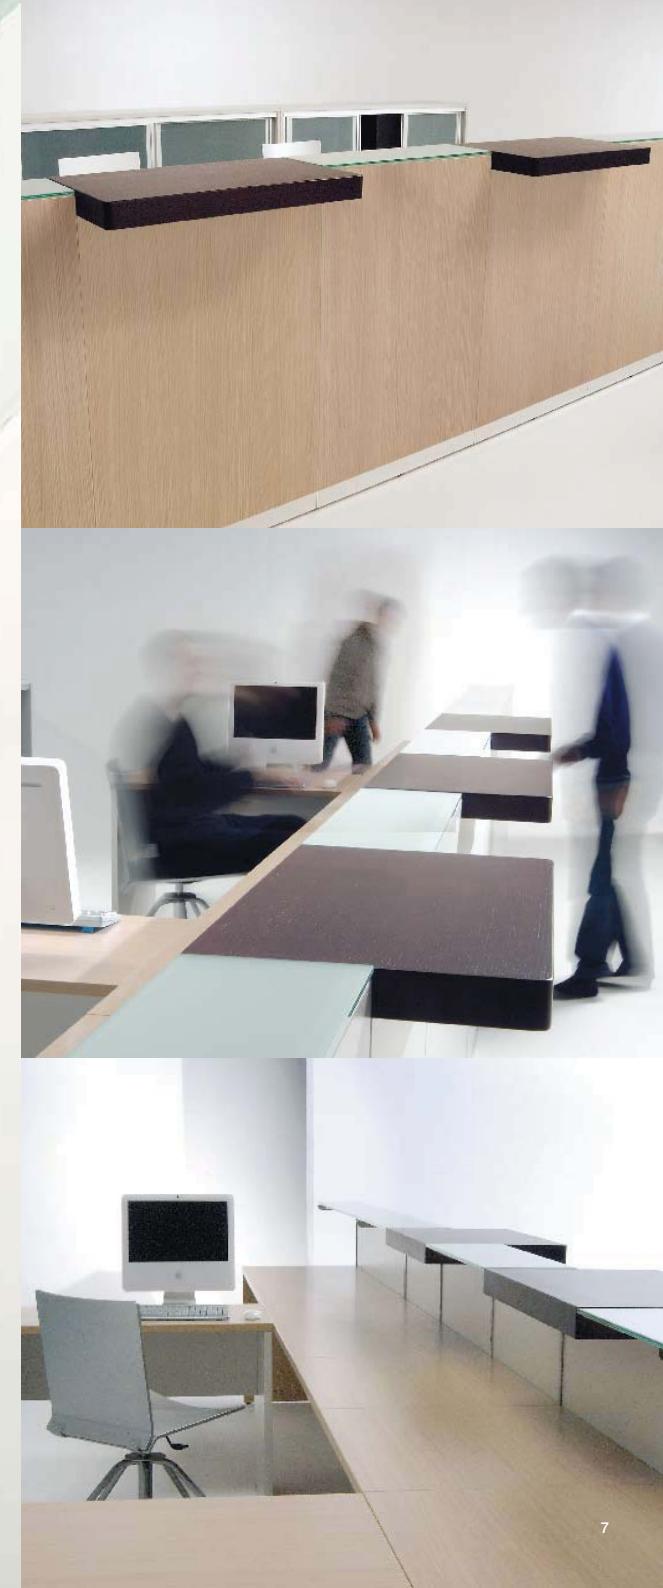

with a curvilinear structure. It is made-up of "barrier" type structural elements with a vertical front that supports a glass top that is connected to a worktop and the possibility of its chromatic and structural characterization, allow to create reception areas with different and distinctive features (line - curve - circle) with a curvilinear structure. It is made-up of "barrier" type structural elements with a vertical front that supports a glass top that is connected to a worktop and the possibility of its chromatic and structural characterization, allow to create reception areas with different and distinctive features (line - curve - circle).

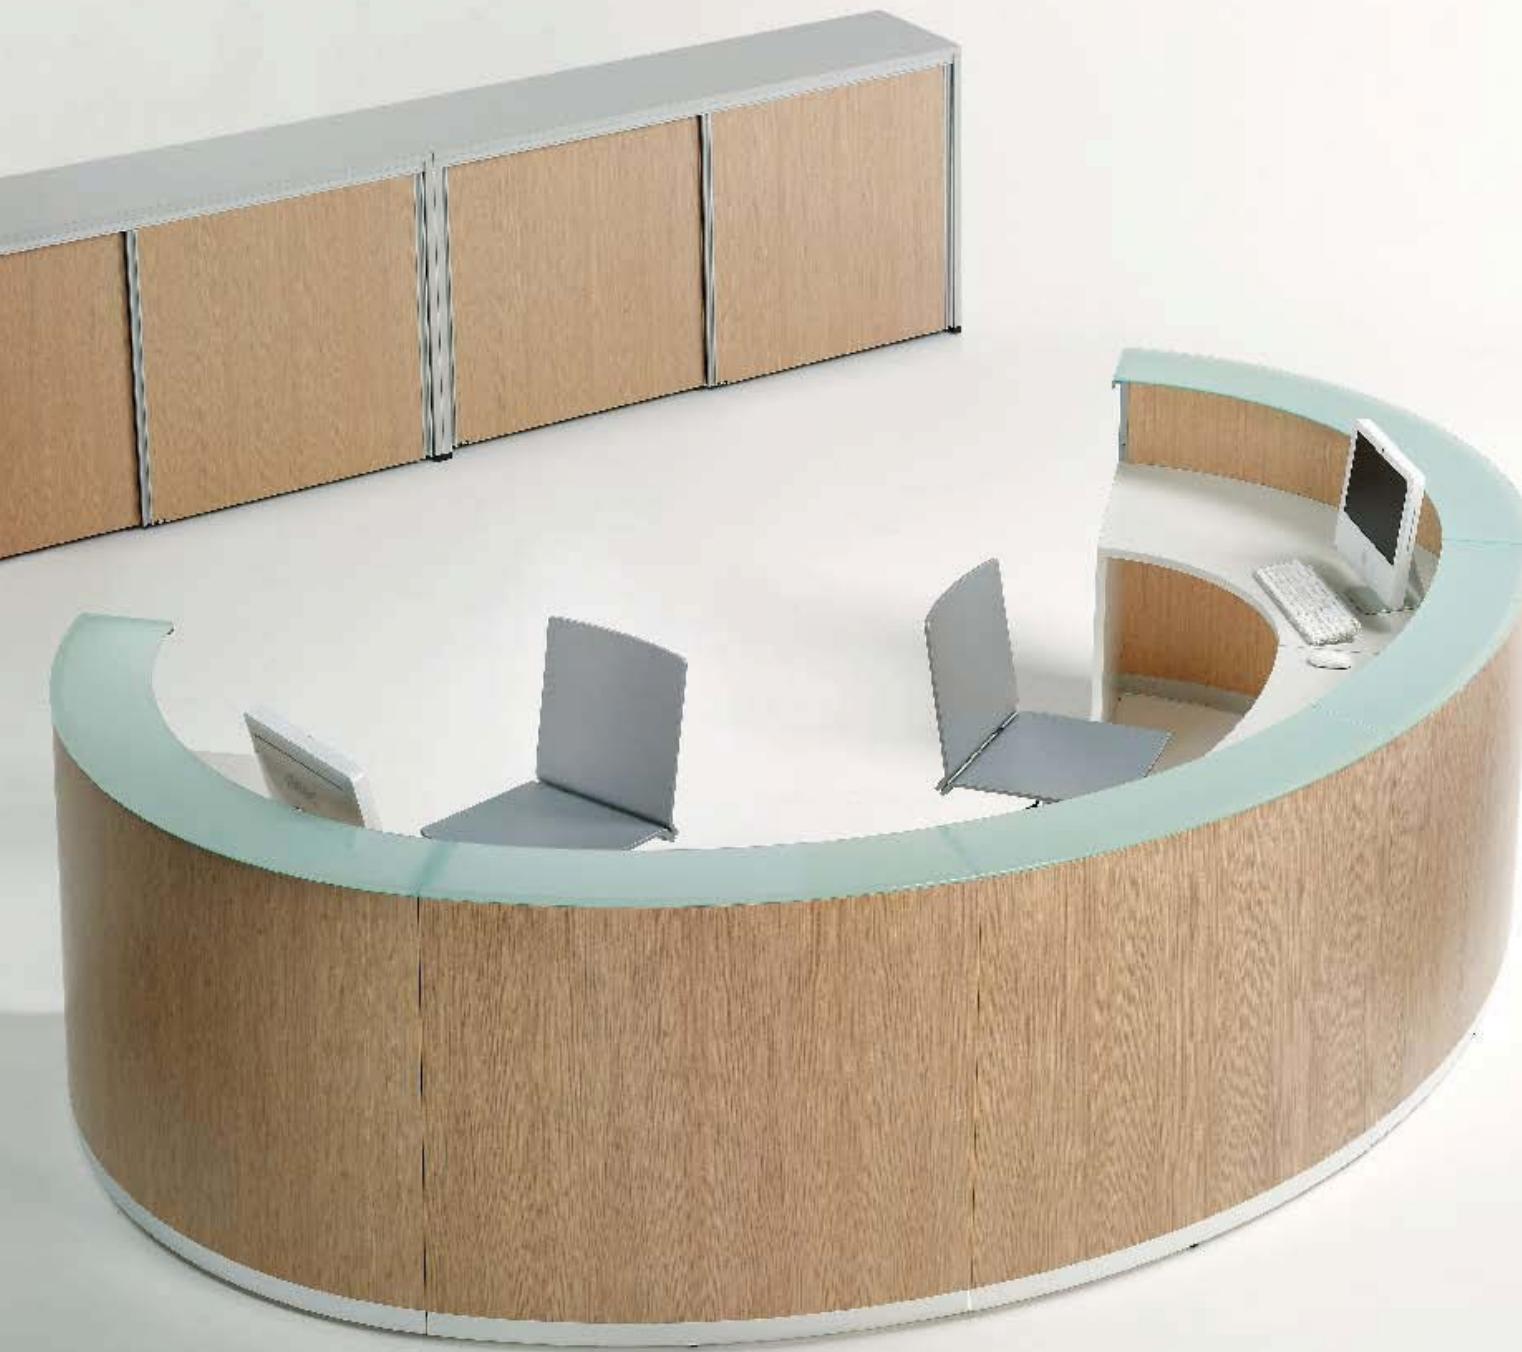

avec un plateau et la façade à deux types d'agencement différents. I comprend des éléments structuraux du type "composé", caractérisés par un panneau vertical avec une ligne par des étagères en bois très épaisse. Le potentiel de cohésion des composants, leur fluidité sfumant même par des usagers perturbés (lignes - courbes - cercles - combinés), pour assurer l'accès à tous les aménagements.

Empfangstheke. Das System besteht aus einer Empfangsthekekonstruktion, gebildet aus einem vertikalen Frontelement mit Glasschutz, hinter welchem sich die Komponenten, ihre behindertengerechte Anwendungsrundheit sowie ihre individuelle Ausführungs möglichkeit in Hinblick auf Farben und Materialien anordnen.
