

TOK™

Tok™ designed by
Toshiyuki Kita

Our philosophy:

Variér® chairs are the product of a human idea. We make the human body central to design, learning it by heart. We know which positions promote relaxation and where and how to support the body. The human body is designed for motion, and should never be still for too long. We make chairs that meet all these needs, and then we free our human imaginations to create bold, unconventional forms with perfect functionality.

Human Design Fusion

Tok is a balance of Japanese and Scandinavian style. Its graceful curves evoke a feeling of serenity and encourage you to vary your posture, for hours of peaceful relaxation.

To nestle deep in the curved folds of the Tok is to discover inner peace. Whether you rock, recline or swivel, each of the distinct positions offered by this chair encourages correct posture and relaxation. Adjustable to your weight, with a height-adjustable headrest, the Tok is a chair at one with your body.
